Kript is an ecosystem for like-minded people that provides informational services, personalized support, and advice

kript

HOW KRIPT WORKS

Advisor.

The application understands what information the user is interested in receiving in real-time

Notification system.

The application delivers the information through inApp/Push proactively and not on request

Social network.

All decisions can be discussed with other users

Exchange.

An opportunity to buy or sell crypto assets directly in the app

According to the research of Cambridge University and Visa, 54% of crypto users consider crypto assets only as an investment tool. In quantitative terms — the number of crypto investors is increasing every day by 20-40 thousand worldwide.

kript

Our audience is those people who currently buy crypto assets for investment purposes. We can highlight three main types of investors:

1. Cryptocurrency and token holders who are looking for a convenient, safe and single interface for trading and analytics
2. New private investors who are looking for safe and clear service for entering the market
3. Institutional investors who are looking for an opportunity to monitor experts' opinion and the situation on the market
